**REINO - Light head CEL5000365**

**Specifications**

**Input**
- Input voltage: 24Vdc (230VAC thru control gear)
- Power consumption: 7W (14W from mains thru control gear)
- Control: 0-10V dimming (optional)

**Output**
- Correlated color temperature: 4000K
- Led lumens: 920 lm
- Lumen maintenance: >50khours L70 @ TA = 25°C

**Environment**
- Dimensions: 146x146 x71
- Weight: 1.48kg
- Material: PMMA
- Operating temperature ranges: Ambient TA = -30...+50°C
  Case Tc = -30...90°C
- Encapsulation: IP65
- Safety approval: IEC62031, EN60598-1
- EMC radiation: EN55015, EN55022
  conduction & harmonics: EN61000-3-2 (thru control gear)
  conductive EMC: EN55015 (thru control gear)

---

**Wood**

All shafts are manufactured from GL28h glued-laminated timber. The raw materials we use to produce our wooden columns are harvested from sustainability managed, PEFC certified forests. All wood is treated with a water-based stain finish consisting of four protective coats, VOCs<100g/l.

The range is designed and developed according to eurocodes 5, standard EN40 and EN1995.

**Steel**

Raw material: low-silicon steel (Si + P ≤ 0.04%)
Zinc coating: international standard EN ISO 1461 (layer thickness typically <90 μm).

---

**REINO -bollard is available also as one light disc version.**
WOOD
Wood is treated against ageing and natural enemies of wood, such as blue stain fungi, mildew and rot. As a natural material wood is expected to expand and shrink as the seasons and moisture change. Our elastic coating is designed to adapt to this behaviour of wood without cracking. Several layers are applied to give wood its final colour and to protect against UV radiation to maintain desired looks. Consistent coating is achieved on by using spray gun and modern drying chamber.

POWDER COATING
Our Tehocoat® coating ensures high quality for surface finishing.
Powder coating is a fast, durable and environmentally friendly solution. Coating powders contain no volatile organic compounds and can be used to obtain a durable surface resistant to mechanical and chemical abrasion.
In addition to powder coating, our paint shop can also apply wet paints and Plascoat thermoplastic coatings, and utilize modern solutions to produce different kinds of textures.

NOTE: Due to printing techniques, the colours presented may differ from reality.
